

A man with a beard and glasses, wearing a yellow patterned shirt, is smiling and looking at his smartphone. He is standing in a modern living room with a woman sitting on a blue sofa in the background. The room is decorated with plants and framed art.

The Complete Transaction Suite

Empower Sales from Cart through Checkout

The Broadleaf Commerce Transaction Suite offers a comprehensive solution for managing eCommerce transactions, providing businesses with tools for order processing, payments, and fulfillment. Designed to streamline complex transactional workflows, this suite ensures a flexible and scalable approach to handling high-volume sales while maintaining seamless customer experiences.

Do More to Delight Your Customers

Streamline Operations

Real-time inventory tracking, automated order processing, and flexible payment solutions.

CSR Order Management

CSRs have complete access to all order details, enabling them to quickly address customer inquiries and resolve issues.

Elevate Customer Service

Generate RMA numbers with ease, enabling customer returns quickly and hassle-free.

Flexible Commerce with Reliable Tools

Enhance payment processing, inventory control, user interaction, and workflow efficiency.

Cart and Checkout:

Easily integrate with payment, tax, and shipping providers for a smooth, reliable checkout experience.

Inventory and Fulfillment:

Manage inventory, pricing, and fulfillment across multiple locations and channels.

Customer and Orders:

Empower customers and sales reps with saved carts, shared carts, and assisted ordering features.

Payment and Tax:

Streamline order processing, fulfillment, cancellations, and returns for both customers and CSRs.

Streamline Transaction Processes with Unmatched Efficiency

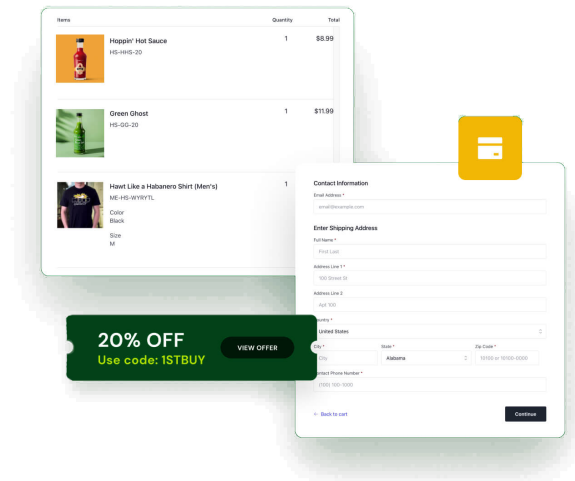

Optimize Your Checkout Experience

Flexible Cart Management: Add, update, or remove cart items with built-in validation.

Streamlined Promotions and Payments: Easily manage promotions, fulfillment information, and payment options.

Seamless Integrations: Connect with external services using pluggable interfaces.

Efficient Data Management: Delegate persistence to dedicated cart services.

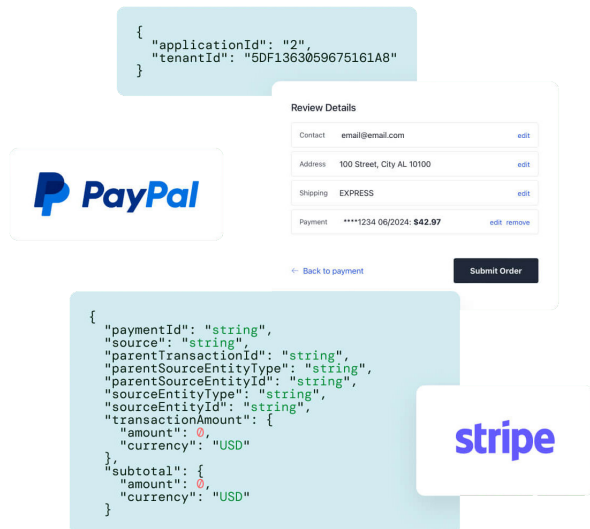

Offer Multiple Payment Options & Methods

Customizable Payment Gateways: Easily integrate with Broadleaf's Payment Gateway Connectors or build your own to meet your specific needs.

Flexible Payment Options: Offer customers a variety of payment methods, including points, store credit, and saved payment tokens.

Centralized Payment Management: Streamline payments across checkout and order systems, supporting all transactions.

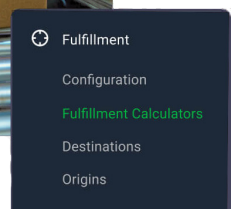

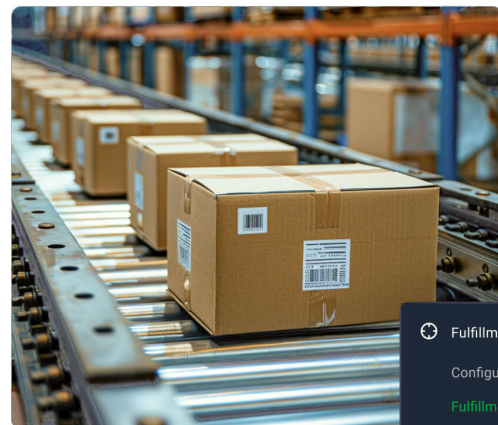

Flexible Inventory Management and Shipping

Multiple Inventory Strategies: Support for multiple locations where SKU inventory is held.

Serialized Inventory Support: Track individual items with unique serial numbers for enhanced inventory control.

Customizable Shipping Rules: Offer shipping options based on product groups, item price, weight, origin, destination, and more.
